Environmental Policy

Tradewinds Plantation Berhad (TPB) recognises its responsibility to protect the environment beyond legal and regulatory requirement. We are committed to protect our environment; hence continuously reducing and monitoring the environmental and diversity impact resulting from TPB business operations.

We will strive to achieve the goals through:

- Compliance with all relevant statutory and regulatory requirements;
- Continuously addressing environmental issues through implementation of beneficial environmental and conservation programs.
- Continuous training and information updates relating to environmental awareness for relevant stakeholders;
- Incorporate environmental factors into business decisions.
